

STUDENT CASH EXPENSES

Dr. Lasansky, the travel committee, and the chaperones all realize that everyone has made significant payments for their student's trip. The payments that have been made do not include everything, and we would like to give families the opportunity to budget for additional expenses. None of these activities are required, and the costs listed below are approximate, not guaranteed, and subject to tax and change. We ask that families work with their students to budget and plan what you feel is appropriate. Students can bring prepaid credit cards, debit cards, or cash, and are responsible for keeping their money safe.
